

PROJECT STATUS REPORT	
Project Name	Learn to invest app
Scrum Date	January 5 (skipped last bi weekly scrum due to finals / xmas break, next project status report will be next week on Jan. 13)
Project Status	Green 
Status Description	Status is green: <ul style="list-style-type: none"> - courses with quiz and explanations front-end complete - populated course dropdowns + ticker dropdown - inserted the first course - created lambda to pull financial data into our db for paper trading with third party API (stockdata.org) - started paper trading / graph
Activities—During the Past 2- 4 Weeks	
Erika - added the course preview + quiz and explanation front end, added more models to the backend with initialization routes	
Hayden - Researched different stock API's and selected one for use. Created the first lesson with quizzes. Started working on the Trading page by setting up charting. Created Lambda on AWS to query and update stock prices from stock API.	
Activities—Planned for Next 2- 1 Weeks	
Hayden: <ul style="list-style-type: none"> - populate ~2 lessons a day (16) - Finish charting on trading page 	
Erika: <ul style="list-style-type: none"> - insert user quiz data into db - create final results for lesson page - change the lesson preview to Redo lesson if user has completed it already
