

Are you interested in investing, but don't know where to start? Do you feel overwhelmed by all the jargon and complexity of the financial world? You're not alone.

Investment Grade is here for you. A mobile app that makes learning about investing easy and fun.

With the Investment Grade app, you can learn about investing through fun interactive quizzes and short lessons, all from the comfort of your own phone!

We know how overwhelming it is to get started but we're here for you to make learning about investing as simple and easily accessible as possible to begin paving your route towards your financial goals.

Our lessons cover a wide variety of topics necessary to get you started from the basics of stocks and markets, to more advanced concepts like fundamental analysis.

Our lessons are designed to be engaging and easy to understand, so you can build your knowledge at your own pace

And with our paper trading feature, you can test out your newly acquired investing knowledge in a risk-free environment, before putting your real money on the line. How great is that? Buy and sell stocks like you would with a real broker.

Search up a company you're interested in and get its price history and fundamentals.

Investment Grade is the perfect tool for anyone who wants to take control of their financial future. Whether you're a beginner investor or a little more experienced, our app has something for you.

So what are you waiting for? Download Investment Grade today, and start your journey to financial success!

Available on iOS and Android.
